My great hope with this space is that in times when we're feeling rudderless, we can look to our fellow funny women to keep us on track. Through positivity, gratitude and connection.

And road stories. And courageous moments. And the worst intros. And comedy victories.

Think of this place as the passenger seat on a long chatty drive back from a hell gig.

This is a place where funny women can gather, celebrate each other, be seen, and have some laughs.

The **Firecracker Comedy Department** will focus on bringing funny Firecrackers together who chose Comedy as a career, or who just LOVE Comedy, in a positive and supportive way.
